The schedule will stote the times within which articles will be required to be delivered; and where the printed schedule is not used, the periods stated in it for deliveries must be copied in the bids. All the articles which may be contracted for must be delivered at such place or places, including drayage and cattage to the place where used within the navy yards, respectively, for which the offer is made, as may be directed by the commanding officer thereon and, all other things being equal, proference will be given to American manufacture. No article will be received after the expiration of the period specified in the schedules for the compution of deliveries, unless specially authorized by the Department. In computing the classes, the price stated in the column of prices will be astraid out according to the price stated.

It is to be provided in the contract, and to be dis-

of prices will be the stendard, and the aggregate of the class will be carried out according to the prices stated.

It is to be provided in the contract, and to be distinctly understood by the bidders, that the amount and number of articles enumerated in classes headed "Miscelancous," are specified as the provided quantity which may be required, as well as to fix data for determining the lowest bid, but the contractor is to furnish more or less of the said enumerated articles, and as nead governities, and at sack innex, as the bureau or commandant may require, such increase, however, not to exceed one half of the quantities stated (and requisitions sent through the jost office shall be deemed sufficient notice) curing the fiscal year ending 30th June, 1863; and whether the quantities required be more or less than those specified, the prices shall remain the same.

All the articles under the contract must be of the best quality, delivered in good order, free of all and every charge or expanse to the Government, and subject to the inspection, count, weight, or measurement of the said bay yard, and be in all respects satisfactory to the commandant insersof. Bidders are referred to the yard for plans, specifications, or samples, and any jurther description of the articles in doubt, which information the said officer will give in writing. Contractors for classes headed "Miscellancous," who do not reside near the place where the commanding officer of the navy yard and not to expect and show cause, if any they have, why said petition ought to be granted.

Proposals whill be distributed to have the lowest bidders who give satisfactory and whether the quantities are to be delivered, will be required to name in their proposals an agent at the city or passiple place their objections, specially set for the investigation of said patent, which articles are to be delivered, will be required to name in their proposals an agent at the city or passipling that the proposals and agent at the city or passipling and the proposals an

upon to deliver articles settoet delay when they shall be required.

Approved survives in the ful he contract will be required, and two first will be required, and two first will be required, and two first will be required and two first will be sent until the contract chail have been completed unless otherwise authorized by the Declase on or articles headed. Miscellan livered as required during the fiscal year, the well-be commondant, be paid quarierly on the lat of January, April, July, and October, when the deliveries have been satisfactory, and the balance (eighty percent) will be paid by the re-pective navy agents within thirty days after the presentation of bills in riplicate, only ouched and approved.

Ke part of the per centum reserved is to be paid

1 1 PH 10

riplicate, only vouched and approved.

No past of the per centum reserved is to be paid until all the rejected artisles offered under the contract shall have been removed from the yard, onless specially authorized by the Department.

It will be stipulated in the contract, that if default shall be made by the parties of the first part in delivering all or any of the articles mentioned in any class bid for, of the quality and at these and parties will forfeit and pay to the United Maics a sum which may be recovered, from time to time, according to the act of Congress in that case provided, approved March 3, 1852.

The suretice must sign the contract, and their responsibility be certified to by a navy agent, collector.

district attorney, or some other person sathfactority known to the bureau.

It is to be provided in the contract that the bureau shall have the power of annulling the contract, with soil less or damage to the Government, in case Congress shall not have made sufficient appropriations for the articles named, or for the completion of works estimated for, and on which this advertisement is based, and shall also have the power to increase or diminish the quantities named in the classes not theseder "Miscellaneum" in the schedule, twenty-five per centum.

Beginns whose offers shall be accepted will be no.

Beginns whose offers shall be accepted will be no.

The bids to be directed to Captoin A. BECK-WITH, (i. S., U. S. A., and endorced "Proposals app 15").

shall be considered sufficient; and if they do not enter into contract for the supplies specified within fifteen days from the date of notice from the bureau of the acceptance of their bid, a contract will be made with some other person or persons, and the guarantors as such defaulting bid-der will be held responsible for all delinquencies.

All offers not made in strict conformity with this ad-vertisement, will, at the option of the bureau, he re-jected.

lected. Those only whose offers may be accepted will be notified, and contracts will be ready for execution as soon thereafter as may be practicable.

DROPOSALS FOR REVENUE VESSEL

PROPOSALS FOR REVENUE VESSELS

TRESURY DEPARTMENT,

WILLIAGORS, September S, 1861.

The Department will receive projocals, accome and by models plans, and specifications, until 13 b'clock Monday, Soth September, 1861, for the comblete construction and equipment of Two Steam Serve Revenue Vessels of 150 tons each, and of three Steam Serve Revenue Vessels of 150 tons each, and of three Steam Serve Revenue Vessels of 600 tons each United States measurement.

Proposals will only be considered from successful steam ship-builders actually engaged in that business; and the name of the marine steam enginess; and the name of the marine steam enginess; and the name of the marine steam enginess; and the name of the two sels of 150 tons casts not exceed ten (10) feet, and they will be smad with one rided pivet gan of 8,000 lbs. weight. The load draft of water of the vessels of 150 tons casts in the complement for each vessel to be if persons, sarrying provisions for sixty days, and 2,800 gallous of water fat tanks; to be furnished with a condenser for distilling potable water.

The vessels to be schooner-ligged, with flying gaff topsals, equare sail, and yard to set flying.

The load draft of water of the vessels of 600 tons must not exceed 5½ feet, and they will be armed, each, with one rifled pivot gun of 6,500 lbs. weight two 32-pounders of 45 cwt, and one light navy 24 pounder howitzer on the top-gallant forecastle.

The ressels to be schooner-rigged, with flying gaff topsals, equare sail, and yard to set flying.

The load draft of water of the vessels of 600 tons must not exceed 5½ feet, and they will be 65 persons, earlying provisions for sixty days, and 2,000 gallons of water in tanks, and to be turnished with a condenser for distilling potable water.

The proposal must be for the hull, spars, rigging, saits, and canvas work, mast coats, awnings, harmocks and bags, boats, auchors and cables, make casks, binnaites, belis, turniture for cabina sad measures, belis, turniture for cabina sad measures, and bags, boats, au

which must be seed to maintrined, and the quantity of coal that can be carried in the buckers for that speed, which should not be less than for ten days of twenty four hours each.

The specifications must describe fully the material to be used; the manner and size of fastential grades to retail to the size. Inish, and arrangement of the machinery, and the proposal.

The plant must be working drawings from which the vessel and machinery can be built, showing the about stowers for accommendations, steam room, magazines, shell rooms, disposition of coal, and converted to the full minute of the draft of the full minute of the draft of water, speed, fuel, satisfactory working of the machinery, and other jounds required, with a forfeiture in case of failure.

The bidders must state the least time, from the signing the contract of acceptance of the proposal within which they will gree to complete the vossel, and which which they will gree to complete the vossel, and which they will gree to complete the vossel, and which they will gree to complete the vossel, and which they will gree to complete the vossel, and the bider and speed to all that it required by law, that, if a warded, they will execute the contract.

The began must be stated, and the bider of the work progresses, retaining one fith 11-3) of the whole amount for minute (90) days after the proposals made in contornity with the conditions prescribed, which it may consider most to the interest name of advantages, and to reject any of elect that more of advantages, and to reject any of elects that more of advantages, and to reject any of elects that more of advantages, and to reject any of elects that more of advantages, and to reject any of elects that more of advantages, and to reject any of elects that more of advantages, and to reject any of elects that more of advantages, and to reject any of elects that more of

number of advantages, and to reject any or all or them at its of tion.

A competent person will be appointed by the Department to susper intend the construction and equipment of each of the vessels.

The specifications, plans, and models of parties not obtaining contracts hay be withdrawn by them S. I. OliAbl., sep 5—taw Secretary of the Treasury.

SEAL D PROPOSALS, till the 25th of September, 1861, at 12 o'clock, M., are invited, for furni hing the Subsistence Department with 140 tons

turni hing the Subsistence Department with 150 tons of HAY.

The Hay to be delivered in Washington at such place as the Government may direct.

The quality to be equal to the best, and to consist of timothy and clover mixed.

The Government reserves to their the right to reject all or any of the bids, and for any cause it may think proper. Fayment for said flay to be made in Treasury notes, if Government desires to do so.

The Hay to be furnished in bales of from 150 to 400 lbs., and the weight of wool and wire used in bailing to be deducted.

The bids to be directed to Captain A. BECK-WITH, C. S., U. S. A., and endorsed "Projects for Hay" replied to the directed to Captain A. BECK-WITH, C. S., U. S. A., and endorsed "Projects for Hay" replied to the directed to Captain A. BECK-WITH, C. S., U. S. A., and endorsed "Projects for Hay" replied to the directed to Captain A. BECK-WITH, C. S., U. S. A., and endorsed "Projects for Hay" replied to the total projects for Hay " replied to the directed to Captain A. BECK-WITH C. S., U. S. DYSPEPSIA, INDIGESTION Weakness or Deblity, Flatulency and Nausca Loss of Appetite, Nervousers, Liver Com-plaints, Billous Fevers, and all Diseases of the Stomach, Liver, and Bowels. AS A PREVENTIVE FOR PEVER AND AGOS.

THESE BITTERS ARE NOT EQUALLED. P. P. A A. W. GRHELRY, Proprietors, B.

THE OBJECT of all mediciness either to prevent disease, or to assist Nature in restoring the various organs of the body to a healthful action, and that medicine is certainly the best which will perform those offices thoroughly, yet mildly, and without endangering the vital forces of the system, by whose normal condition alone health and strength can be preserved. Most of the Bitters that have heretofore been brought into popular favor, have only served the purpose of temporarily stimulating or exciting the organs into a condition resembling hesithful action, without any remedial effect, and generally followed by a return of the disease, or a prostration of a nervous energy more disastrous than though Nature had been left to take its own course.

Dr. Greeley's Bitters are a preparation of the nutritive properties of the grain of the fields in combination with the active principle of many simple alteratives and bitter tonies, and it is a pleasure to the proprietors to state that its use-fulness is being generally acknowledged by the largely-increasing consumption in those secmony of many eminent physicians, who have not only made trial of it, but continually presoribe the Bitters in those cases for which it is recommended.

AGED PEOPLE, AND ALL WEAKLY PERSONS.

Consumptive patients, and others, whose constitutions have become impared by time, or en-feebled by disease, and in whom the process of digestion does not replace the fat and tissues of the body as fast as they waste, will find these Bitters at once nourishing and strengthening, and happily adapted for their use. The great advantage the litters possess over ordinary stimulants usually prescribed in treating lung complaints and kindred diseases, is the fact that they combine many safe and certain healing properties in connection with the best known stimulant, DELICATE LADIES

Will derive great benefit from it. No unpleasant effect will ever result from taking the Bit-ters, if the directions are followed. For those who suffer from nervous debility, languor, want of rest, exhaustien, and in all cases of weak-

ness, the Bitters are not equalled.

As an agreeable stomachic, it is much admired; it sharpens the appetite, brightens the intellect, and infuses new life and vigor. No one who uses these Bitters can be subject to an attack of FEVER and AGUE, or DIARRHŒA. Of all the ills that afflict men and women, few

are so agonizing as Dyspepsia. It is a sort of combination of many diseases. Thanks to science and Da. Garriler, a specific has now been obtained. GREERE'S BOURSON BITTERS take straight hold of the disease, and begin a cure. Thousands of well-attested cases of cures of Dyspepsia, Indigestion, and Fever and Ague, even of the most desperate kind, are in the possession of the proprietors.

Not a few people, everywhere, complain of Weakness or Debility. This is the gentle hint of nature for a little help in the way of invig-cration. The hint should not be neglected. good and spinteen sureties, to name the grades proposed.

This guarantee must be accompanied by the certificate of the United Misses sistrict judge, United States district attorney, or many agent, that the guarantee are able to make good their guarantee.

No proposal will be considered unless accompassed by such guarantee.

The bidder's name and residence, and the name of each member of the firm, where a company offers, with the Christian names written in full, must be distinctly stated.

Weakness or Debility. This is the gentle hint of nature for a little help in the way of invigoration. The hint should not be neglected.

"A stitch in time saves nine." Got a supply of GREELEV'S BOURDON BITTERS, take them regularly, and our word for it you will feel better, live longer, be stronger, and think and act with very much more satisfaction. The Bitters are a distinctly stated. with the Christian names written in full, must be distinctly stated.
Under the joint resolution of Congress, approved 24th March, 1953. "all bids for amplies of provisions, clothing, and small stores for the use of the navy may be rejected at the option of the Department, if made by one not known as a manufacturer of or regular dealer in the article proposed to be furnished, which fact or the reverse, must be distinctly stated in the hids offered."

In America, the Liver is the best abused of all bids offered."

In America, the Liver is the best abused of all the organs in the body. It is made the saddle of all other organs. As a consequence, it is often out of order, and not unfrequently nearly inoperative. This need not be; on the con of the COAL.

Ceal kept in coat houses, well screened before

trary, it is quite unnecessary. A little common lelivery.

sense, and a sufficiency of Greener's Bourson BITTERS, will keep the Liver right, and make man a man, and woman, now miserable, quite happy. The Bitters regulate and strengthen the Liver, no less than purify it.

The increase of Norvous Disorders, at the present day, is one of the most alarming indi-cations of the age, or rather, would be, were it not that a most admirable cure had been found. There is not a phase of nervous disease, whatever it may be, that these Bitters will not act upon favorably, and in the most efficient manner. All who are unfortunately afflicted with complaints of this nature, or with indigestion, or any diseases of the Stemach. should not fall to make use of GREELEY'S BOWR-

EON BITTERS.
Chills and Fever. In many portions of the United States, this terrible disease seizes its victims as naturally as water seeks its level. The system, in a particular condition, invites it. The right medicine to prevent and cure this malady, we unhesitatingly say, is Greater's Bourses Bitters. It breaks up the fever, drives it from the system, and will keep it at bay, if taken in secondance with directions on the bottle. The Bitters purify and enrich the blood, and this in return strengthens the con-
